Rate Sheet

OptiMind Educational Strategies — prepared by Ruby Groves, Gemini Lane

Status · Draft Last updated · Aug 16, 2026

What the Rate Sheet Covers

Pulled from the [New Client Service Agreement](#) (Exhibit B, Fee Schedule).

SERVICE	RATE
New Client Intake Meeting	\$500.00 per Session
50-Minute Executive Function Session	\$235.00 per Session
Special Education Advocacy	\$250.00 per hour
College Counseling	\$250.00 per hour

Payment & Processing Terms

Credit card processing fee	2.99%, added to the Client's charge.
Billing cycle	Invoiced monthly; the card on file is charged the full invoice amount on the date the invoice is issued.
Late fee	\$25.00 flat fee if the card on file fails and isn't updated within 14 days (charged on the 15th day from the invoice date), plus 1.5% monthly interest, compounded, on the overdue balance from that point.

No-Show, Cancellation & Non-Session Billing

- Cancelling within 24 hours of a session, or arriving more than 20 minutes late, bills the full session — consistent with the [No-Show & Cancellation Policy](#). Early cancellations, late cancellations, and reschedules are tracked as separate, distinct outcomes.

- Electronic communication: brief emails/texts are free; anything more than brief is billed at the applicable session rate. Phone calls with outside providers are billed in half-hour increments.

Conflicts with an earlier decision

This rate sheet previously stated, per Sarah's earlier decision, that **no non-session rate schedule** would be included. The Services Agreement's Electronic Communication and phone-call billing terms above *are* a non-session rate schedule. **This needs Sarah's call** — has the earlier decision changed, or should the Services Agreement's non-session billing language be reconciled/removed instead?

Hosting & Update Process

TBD — where should the permanent URL actually live? Options include the practice website, a shared Google Drive doc, or a page inside this dashboard. Once decided, the follow-up email gets updated once to link there instead of attaching a file.
